

ColorSplash Group

ZOT Pinsetter Parts, Inc. – Denver, CO

A company specializing in manufacturing unique solutions in electronics and metal fabrication products for the bowling industry; ZOT's services include sales and unmatched technical support for virtually every bowling center in the world. ZOT's innovative expertise in R&D for electronic and mechanical engineering has made the company successful for more than 50 years. More recently ZOT has added marketing an extensive line of innovative profit generating LED Effects Lighting Products, under the brand name ColorSplash, which is revitalizing the bowling and entertainment industry.

DFX Sound Vision – West Berlin, NJ

Founded in 1986, DFX specializes in audio, video, lighting, and automation solutions. Our services include sales, installation and system design for a wide range of entertainment industries including bowling and entertainment centers. Our mission is to provide quality service and products while understanding and catering to the unique needs of individual proprietors of bowling and Family Entertainment Centers (FEC's) through customization. No job is too big or too small and our projects have spanned the entire globe.

Tenpintec – Queensland, Australia

Tenpintec has been designing and manufacturing an extensive line of high performance electronic parts and assemblies for AMF and Brunswick pinsetting machines since 1993, including supplying and installing full special-effects LED lighting, audio-visual components and systems, and safety products. The principal owners of Tenpintec have been involved professionally in the technical side of bowling since circa 1981 with proprietors universally benefitting from their innovative designed products. Tenpintec is a proven leader; a company that clearly understands the needs of the industry and individual proprietors.
